Review. La Province Chinoise du Yun-Nan, By

Emile Rogher. E. Leroux. Paris. This is a book of which we can speak in high terms. Admirably printed, neatly bound, and carefully supplied with Chinese characters in all places where necessary, it is calculated to engage the attention as much by its mechanical perfections as by the interest of its subject and the modest carefulness of the author. We shall take an opportunity of following the fortunes of M Rocher and his companions at greater length on another occasion; but, meanwhile, we hasten to commend his book to all students of Chinese history. The vivid and graphic picture of the Mahemetan rebellion is perhaps the most striking portion of the work. One of the chief herom, 科玉楊, is now General of Kwang Ting, and against him charges are still pending, as is written in the Chronicles of the Kings of China-the Peking Gazette. The account of the Mino-taz, Lolos, Pa-i, and other tribel is fall of glowing interest. The History of Yun-Nan is perhaps the only one as yet written in a European tongue, and must be inyhow the most complete, as it brings us up to date. The information respecting the minerals of Yun-Nan and the method adopted in working them is full of interest, whilst the maps are probably as perfect at it is possible to make them with the appliances at hand when travellers are buried for years in the heart of China. We think M. Rocher has done wisely in adhering strictly to Sir Thomas Wade's spelling, which, whatever its imperfections, is at any rate the one best known to mandavin-ineaking students, and perhaps the only one which deserves the

name of a system.

Moreover, we owe this course of conduct to the Authorities, since they are denounced by the people for partiality to us. -I enclose a copy of the proclamation of the Kwang-chow-foo (Prefect).

This special proclamation is issued by the Prefect, Su of Kwong Foo, and the Magistrate Yuen, of Nam Hol, for general information to the effect that a tire broke out in the mat-sheds belonging to the stonemasons to front of the French Roman Catholic Cathedral. An alarm of fire was given, the people were in baste going to the spot with engines to extinuish the fire; but on the other hand the stone masons turned towards the p ople with abusive language, and therefore a quarrel was brought about between the two parties. If you people, have suffered any great insult or injustice, you ought to report the matter to either of the above Officers, who would interfere and render a satisfactory decision. But why is it that you people gathered a great number of men in order is explained, we have agreed to issue a clear proclamation, let people and soldiers know. hereafter you must behave yourselves properly within your duties and not from such occasion create any disturbance unless you are determined to violate the law and be of the workmen, possibly backed by the From news received by the Valencia we theless, his memory was good and his de- towards their liquidation. body tremblingly obey. Friday Evening. The scare is over and comparative quiet prevails. To-day the streets adjoining the Cathedral show an absence of mobs and rioting. Shops are open and business and traffic are going on much as heretofore. This morning, the barricades were removed from the streets, and only two or three hundred soldiers were to be seen whose main business was to insist upon everybody moving on at quick march.

Proclamations were issued yesterday by the Viceroy with good effect, correcting the wild rumours that had been freely propagated during the day, as for instance that four men had been thrown into a well in the Cathedral grounds or out up to pieces by the Missionaries.

Your reports are a little misleading in one or two particulars. Your correspondents or informants seem to give the impression that the citizens generally took part in the disturbance. Now, it is a fact that the shoppeople and householders had nothing whatever to do with the riot, and that this row, as well as the threats against foreigners, were confined to that community of blackguards and thieves, so largely represented in the slums of Hongkong, who are ever listening for the fire-gong and whose great motto is " Down with everything that's up." Fortunately for them only two instead of 7 or 8 men, as you report, were killed by the military on Wednesday night. Blank cartridges were first served out, and a volley ordered to charge with bullets, and fire. The roughs, seeing two of their number fall and finding that the Magistrates were in earnest, cleared off, right and left, until next 11 or 12 o'clock. The military were then reinforced to the number of 2,000 strong. Some were ordered to clear the streets and the others to guard the Cathedral the whole day. This was the last of the row, and labour. since then the affair has quieted down.

resumed and concluded on the 30th respondent. July. The petitioner, Mr Russell Brooke Robertson, charged his wife with having committed adultery with an Italian named Favagrossa, at Milan, and with divers other persons at Bergama and other places in Italy. The respondent Mrs Annie Robertson, filed an answer denying the adultery, and making counter-charges against her husband.

The President delivered judgment on the 3rd inst. Dealing first with the counter-charges alleged in her answer by Mrs Robertson against her husband, the petitioner, he held that she had failed to establish either of them. She alleged that her husband had been guilty of cruelty. The "concubine" would appear to be better off on the whole in Annam than in China. The presents given at the marriage are

called by the Lactions "the price of her mother's milk." "Are they the price of the woman?" asks M. Silvestre, who replies, "No. only presents." We are in doubt whether his feelings do not get the better of his judgment here, at least as regards the origin of the presents. The English dow-purse, the German Morgengabe both of which still exist, and the Greek Jeffer dager, are relies of the same historical thing. In proof of the ridiculous nature of the promiseuous application of the word "slavery" to all purchased human beings, we may call attention to M. (d) No Parcel Post.

Local Delivery. 1. All correspondence posted before 5 p.m. on any week day for addresses in Victoria will be delivered the same day, and generally within two hours, unless the delivery should be retarded by the Contract Maila.

2. Invitations, dra, can generally be delivered within Victoria at the private houses of the addresses rather than a places of business, if a wish to that effect be expressed by the sender, otherwise all correspondence is invariably delivered at the nearest place of business. 8. Boxholders who desire to send Circu-

lars, Dividend Warrants, Invitations, Cards. da, all of the same weight, to addresses in Hougkong, Bangkok, or the Ports of China charged to the senders secount, Bach batch must consist of at least ten. 4. Boxbolders may also send Patterus

General, as he may consider necessary, and approved by him. Printed Oironlars may be inserted in such Pattern Packers.

PARCELS.-The public is reminded that there is no such thing as Parcel Post to Europe, de Much trouble and disp pointment are caused by persistent attempts to send small valuable trifles through the Post. Pans. Carios Articles of Dress. Fanoy Work, and similar presents are continually being refused, the senders having often spent more in Postage than would have paid the freight by a camer. No down" cost in London, 1/10 per 1b. We omit our usual figures of Export of refund can be made on such parcels of the Fine to Finest Sc. Caper, To-day, at Sundries to the United States, no par value of Stamps obliterated before the

Singapore, Penang, and Malacca They must not exceed the following dimen-Letters, per half ounce, for Books and sions, 2 feet long, 1 foot broad, 1 foot deep, nor waish more than 5lbs. The postage Newspapers over four ounces in weight will be 20 cents per lb., which will include

> the Postmaster General. 2. The following cannot be transmitted Parcels insufficiently packed or protected or liable to be crushed (as bundboxes, &c.) Glass, Liquida, Explosive substacoes, Matches, indigo, Dyestoffs, los, Mest, Fish, Game, Fruit, Vegetables, or whatever is dangerous to the Mails, or likely to become offensive or injurious in transit.

B. Percels will as a general rule be forwarded by Private Ship, not by Contract Mail Packet. The Post Office reserves the right of selecting the opportunity for transmission, and of delaying delivery in case the number of parcels is such as to retard other correspondence. No responsibility is accepted with regard to any parcel, but the system of Registration will secure the senders against any but a very remote probability of loss.

4. The public are cantloned not to confound these facilities with a Parcel Post to Europe, &c. which does not exist.

Most countries to which Hongkong forwards Correspondence having joined the General Postal Union or being probable about to do so, it is necessary that the following rules be strictly observed.

1. No Letter or Packet, whether to be registered or maregistered, can be received for Postagoif it contains gold or silver money. jewels, precious articles, or anything that, as a general rule, is liable to Oustoms

2. This Regulation prohibits the sending of Patterns of dutiable articles, unless the quantity sent be so small as to make the sample of no value. B. The limits of weight allowed are as

DR. J. COLLIS BROWNE'S CHLORODYNE

(Ex Army Med. Staff) IS THE ORIGINAL AND ONLY

CAUTION .- Vice Chancellor Sir W. P. Wood stated that Dr. Collis Browne was undoubtedly the Inventor of Chlorodyne, that the story of the Defendant, Freeman, being the Inventor was deliberately untrue; which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browns was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's. See Times, July 12, 1864. The public, therefore, are cautioned against using any other than Ds. J. Gollis Brownz's Chlorodynz.

REMEDIAL USES AND ACTION. This invaluable remedy produces quiet refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most exten-

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for

Coughs, consumption, bronchitis, asthma. CHLORODYNE effectually checks and arrests those too often fatal diseasesdiphtheria, fever, croup, ague. Unionopyne acts like a charm in diar-

rhose, and is the only specific in cholera and dysentery. OHLORODYNE effectually onts short all attacks of epilepsy, hysteria, palpitations and spasms.

OHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothscho, meningitis, de.

EXTRACTS FROM MEDICAL OPINIONS. The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received informa-See Lancet, Dec. 31, 1864.

THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at in-tervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance. The publication includes papers original

and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipologo and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinesep Latin, French, German, Spanish, Italian or Por-tuguese, are admissible. Endoavours are made to present a resume in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

department, Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for Information, furnish new or uppublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at band. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, reportory of what scholars are ascertaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the lieview. Address China Keview, Hougkong .- Northern Christian Advocate (U.S.)

Tribuer's Oriental Record contains the following notice of the China Review :- " This is the title of a publication, the first unmber of which has lately reached as from Hong kong, where it has been set on foot as i some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well a in China. The present publication, judging by the number now before us, is intended t occupy a position, as regards China and th neighbouring countries, somewhat simila to that which has been filled in India by the Calcutta Review. The great degree of a tention that has been bestowed of late year upon the investigation of Chinese literaturantiquities, and social developments, to sa nothing of linguistic studies, has led to the accumulation of important stores of inform ation, rendering some such channel of pulicity as is now provided extremely desiable; and contributions of much interes may fairly be looked for from the membe. of the foreign consular services, the Chine Customs corps, and the missionary bod number of the Leview by papers highly Raphael 8 c sherman Amer. sb. 1497 June 25 Vogel & Co. Rev. E. J. Eitel, to which the place of South America 7 c Knowles Amer. sh. 1762 July 28 Russell & Co. Spartan 8 h Vincent Amer. sch. 81 Aug. 27 W. H. Ray honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in con-nexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predemay receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine.

THE CHINESE MAIL.

the subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents in- Per cluding postage to Coast ports. It is the first Chinese Newspaper ever

issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business and legal footing. The projectors, basing their estimates upon the most reliable information from

the various Ports in China and Japan,from Australia, California, Singapore, Penaug, Salgon, and other places frequented by the Chinese, - consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find Kia to their interest to avail themselves of Pow

them. The field open to a paper of this descrip Spation—conducted by native efforts, but Tun progressive and anti-obstructive in tonein almost limitless. It on the one hand You commands Chinese belief and interest while on the other deserves every aid that can be given to it by foreigners.

Like English journals it contains Editorials—with Local, Shipping, and Commercial News and Advertisements.

Subscription orders for either of the above may be sent to GEO. MURRAY BAIN, China Mail Office.
